Casa Turquesa is brand new. Teresa opened her doors on May 1st 2008 after 2 years of painstaking planning and design to create a new concept of pousada in historical Paraty. And she's achieved it to magnificent affect. Casa Turquesa is a cut above the rest of the Pousadas and unique to Paraty. Completely in keeping with the historical tradition of the town and the town house which has been converted to a spacious 9 room light and airy contemporary guest house with beautiful design touches, terrific attention to detail and immaculate workmanship. All suites are spacious, colonial yet contemporary, high ceilings, large beds, with quality furnishings and high tech large state of the art bathrooms. Every touch has been very well thought out by Teresa and her experience of other hotels and features she feels are omitted which she has included such as full length mirrors, good reading lights on adjustable stands and Egyptian cotton bed linen. Wonderful communal spaces which give a feel of home from home and luxurious plunge pool with Jacuzzi in walled central garden with native plants.
